

AEF UPDATE

CAF/SG CONFERENCE

26 Jan 01

THIS BRIEFING IS
UNCLASSIFIED

Major Rob Rocco
Chief, AEF Center Health
Services

Overview

- **EAF On-Line**
- **AEF UTC Reporting Tool (ART)**
- **CINC AFMS Requirements**
- **Preparing our Assets**
- **Sourcing: Philosophy, Teaming, Milestones, Rule Sets**
- **The Way Ahead**

AEF IMPLEMENTATION UPDATE EAF ONLINE

- **Becoming a Web Portal (EAF Online)**
- **Airman's Data Source**
 - Training Templates (Superb information source)
 - Deployment Information (Theater, Base, section)
 - Lessons Learned
- **Commander's Toolkit**
 - Benchmarks myriad of stovepipe local programs
 - Cooperative effort with AFRC, GCSS-AF, AEFB
 - Provides commander with desktop access to squadron data (medical/dental, training, TDY rate, etc)
 - Leverages "master data source"
 - PC-III, AFCHIPS, CAMS, AFORMS

UTC Mission Statement - CENTAF

The mission for the AOR known simply as CENTAF is classified and can not be revealed. If we were to display your mission on this web page the lives of thousands of American Troops would be placed in great jeopardy. Simply take pride in the fact that you will be doing your country a service while deployed; keeping your families safe to sleep at night under the warm blanket of democracy.

AEF IMPLEMENTATION UPDATE ART BETA TEST

- **Met technical expectations**
 - **Field surveys for most fields overwhelmingly positive!**
 - **Medical FAM concerns: Multiple reporting tools accomplishing much the same thing**
 - **MRDSS** - **WBITTS**
 - **SORTS** - **ART**
- **Can identify potential and actual shortfalls**
- **Can certify UTC ability to meet tasking**
- **Next Step: Full AEF Cycle stress test**

AEF IMPLEMENTATION UPDATE ART BETA TEST REPORTS

AEF 1 & 2 DYNAMICS

NUMBER OF RED/YELLOW UTC BY AREA

	PERSONNEL	TRAINING	EQUIPMENT SUPPLY	EQUIPME NT CONDITIO N
AEF 1 RED	97	18	9	4
AEF 1 YELLOW	39	27	11	1
AEF 2 RED	85	6	5	1
AEF 2 YELLOW	49	14	16	5
AEW B RED	24	1	1	1
AEW B YELLOW	4	1	1	0

AEF IMPLEMENTATION UPDATE AEF CERTIFICATION

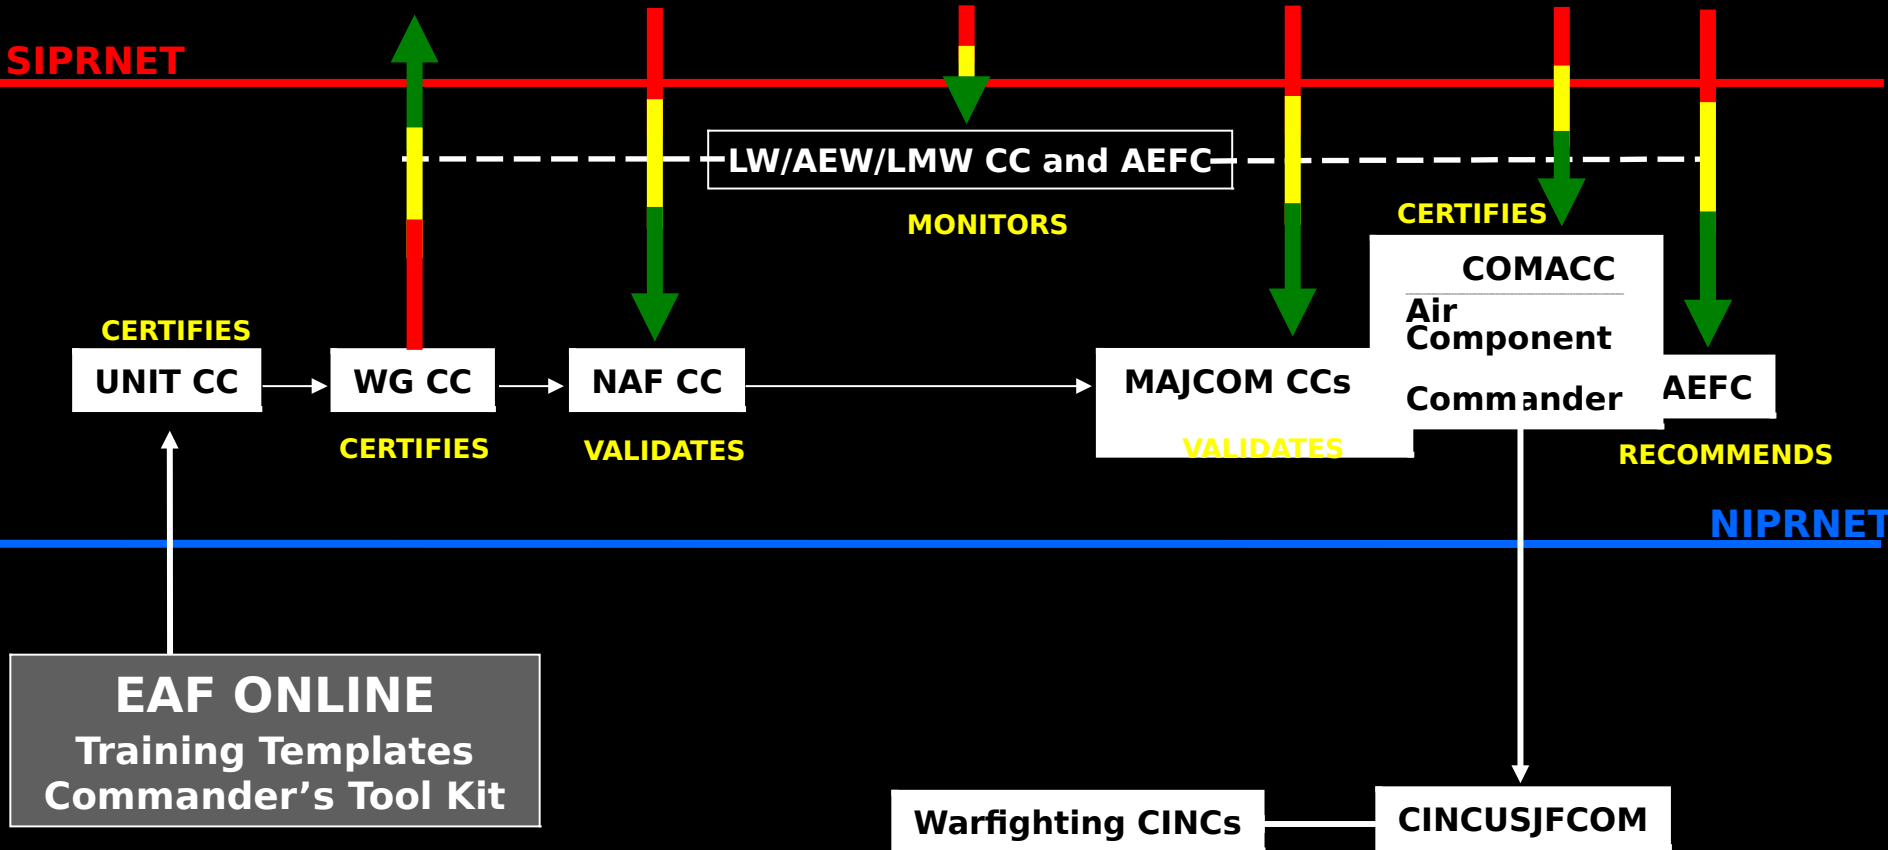

- **Why are we certifying AEFs?**
 - **Focus commanders on readiness**
 - **CINCs need to know status of deploying forces**
- **What are we certifying?**
 - **UTCs tasked to deploy**
 - **UTCs on Prepare to Deploy Orders**

AEF IMPLEMENTATION UPDATE

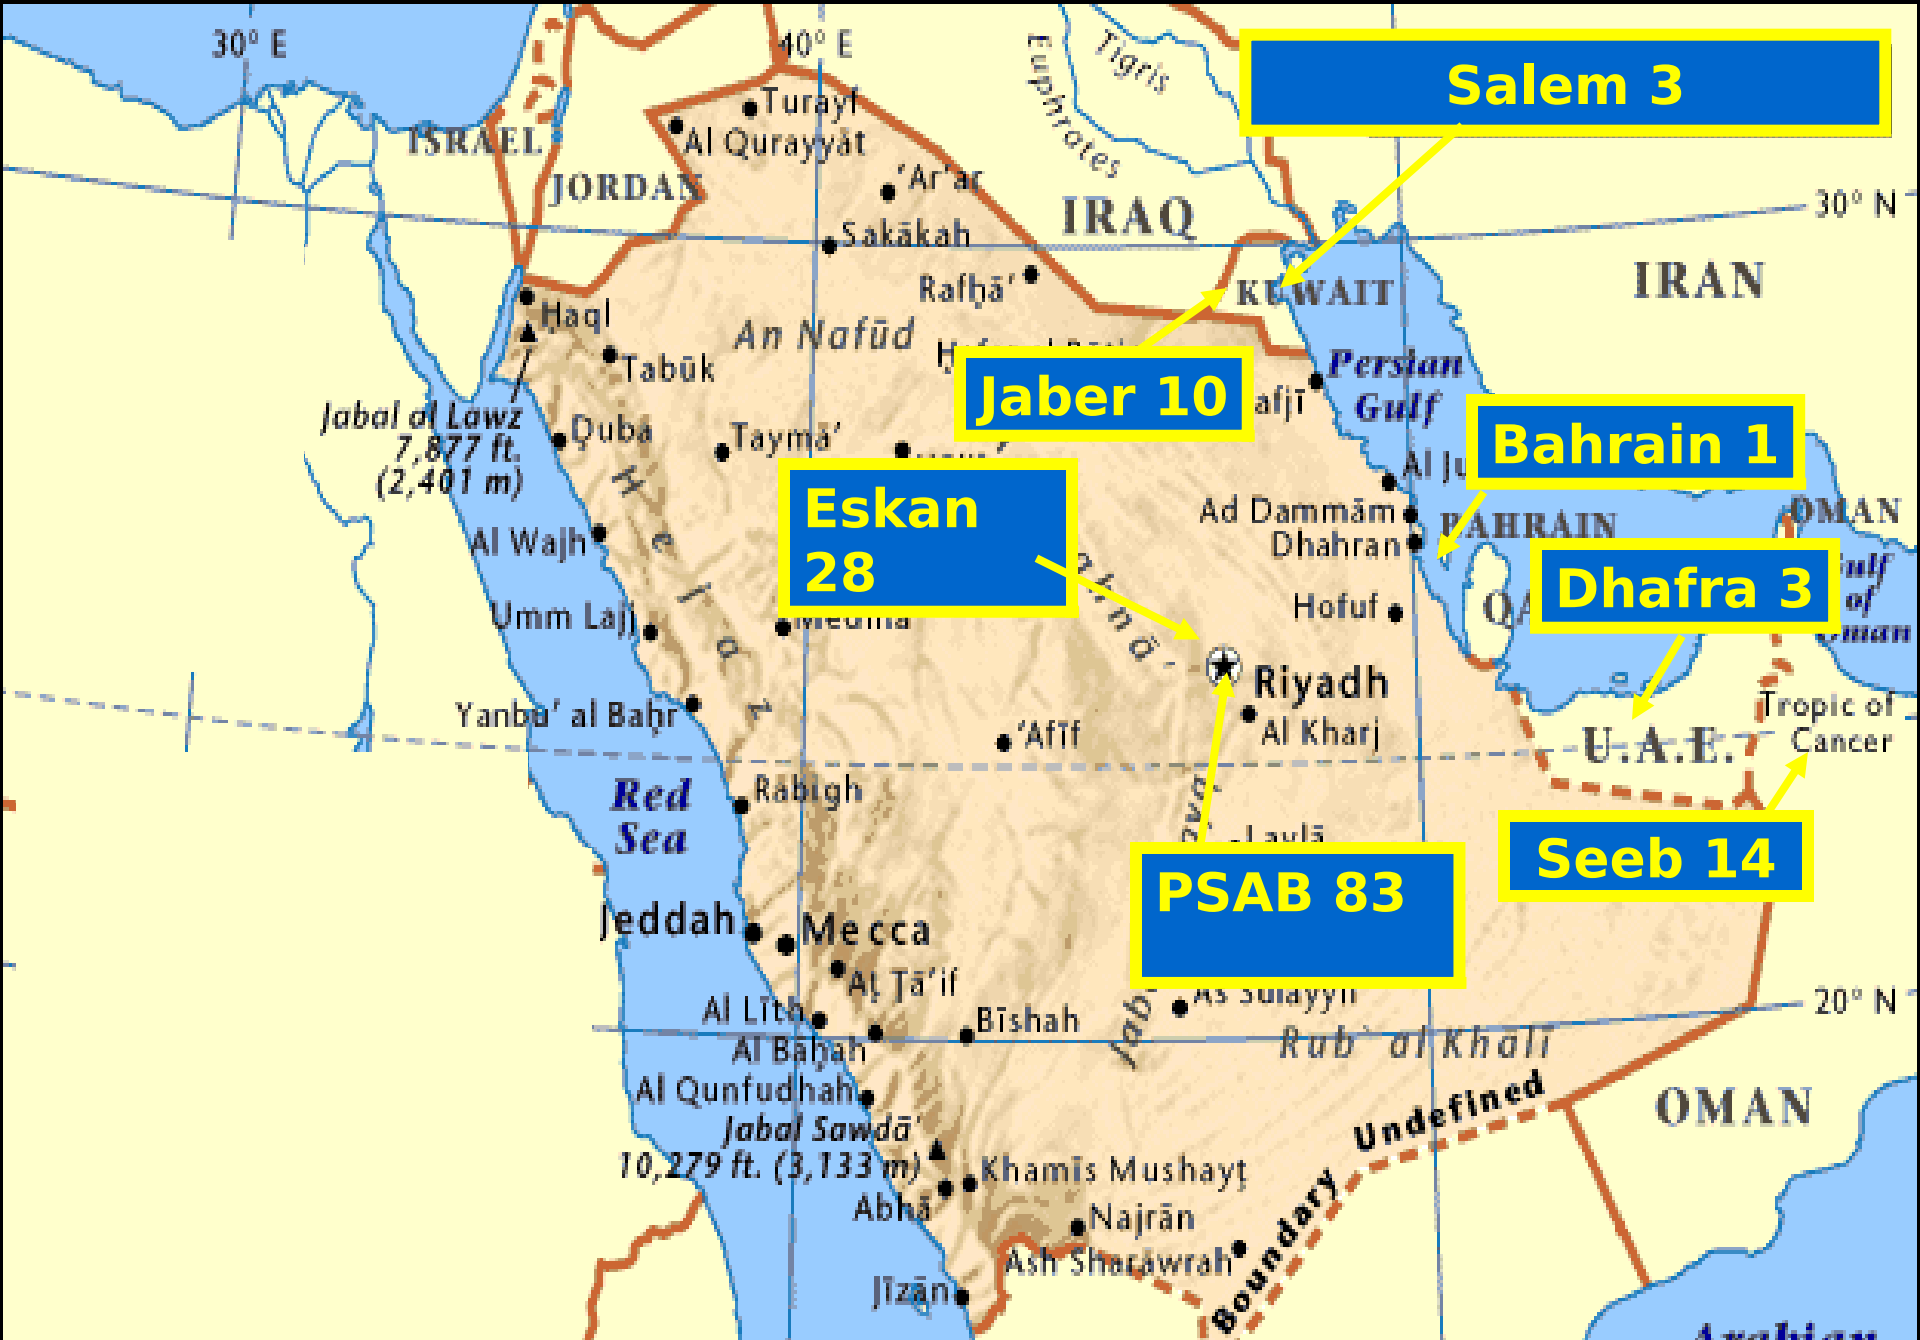

AEF UTC REPORTING TOOL (ART)

SIPRNET

USAFE AEF Medical Deployments (Including SMEs)

CENTAF AEF Medical Deployments (Including SMEs)

SOUTHAF AEF Medical Deployments (Including SMEs)

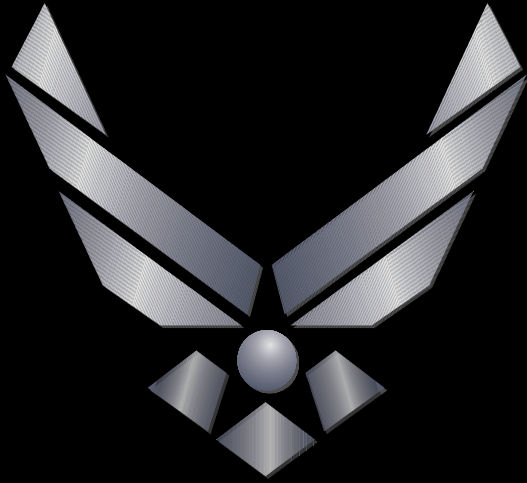

PREPARING OUR ASSETS

AEF Center

- **UTC Certification/preparation**
- **Training Templates - Individuals to UTC-centric**
- **Preparation timeline initiative**
- **Commander's Playbook**
- **Theater Playbooks**
- **EAF On-Line and Commander's Toolkit**
- **RSVP**
- **Web-Based information - One stop shop**

AEF SOURCING

Philosophy, Teaming, Milestones, Rule Sets

THIS BRIEFING IS
UNCLASSIFIED

MSgt Keith Tucker
Chief, AEF Center Medical
Scheduling

AEF CENTER

Key Functions

PREPARE

- Training
- **TPFDD**
- Planning

MONITOR

- Unit readiness
- Visit units
- Visit FOLs
- Liaison

PROVIDE CONTINUITY

- Lessons learned
- Web page
- Data repository

ECS SCHEDULING

- Sourcing UTCs
- Sched Conf Mgt
- Central DRMDs
- Promote teaming

The AEF planning and preparation focal point

ECS-IPT Conf
Phone the FAMS

We
learned a
lot with
cycle II

ECS SCHEDULING

SCHEDULING BARRIERS

1. Lack of right-sized and postured UTCs...**Right-size OK, Enough Postured...Data Disconnects Big Problem!**
2. Restrictive line remarks...**Better than before and better than most**
3. CINC/Component Requirements stated in DRMD...**Fixed for AFMS**
4. FAM not adhering to sourcing rule sets...**Changed rules**
5. “Break the Base” not defined -- **confuses the FAMs**
6. ARC sourcing frags active UTCs...**Still a Challenge**
7. Lack of ADP tools...**Lots \$\$\$ invested to build**

AEF

SCHEDULING/SOURCING

CORNERSTONES

1. **Stability and predictability for troops**
2. **Cyclical scheduling**
3. **AOR seamless force phasing and operation**
4. **Teaming - Moving to Top**
5. **Multiple bases reduction**
6. **Tempo reduction**

CYCLE 3 SOURCING

- **METHODOLOGY**

- AEFC will provide FAMs draft sourcing plan
- Panels approve sourcing—justify changes to ECS-IPT
- Recommend a modified distributed sourcing concept
 - Super functional meetings vs. single functional area

- **PRIME RULE SET**

- Do not fair share
- Max ECS sourcing from lead, sister (**Except Medical**)
- No unit gets hit more than twice/cycle, once ideal (**Except Medical Critical Care First Deployers [MFS,CCT, EP1 GKN etc..] and AE assets**)
- ARC 10% **planning goal**
- Fighters: Max, half, zero -- no ECS back to back
- Bombers: Fence min ECS needed-- the rest deploys

CYCLE 3 SOURCING

- **PRIME RULE SET (continued)**
 - Synchronize functional areas at each wing
 - Do not source outside AEF pair
 - Continue to reduce individual augmentee numbers
 - Keep three-month tours
 - Fenced UTCs: AEWs, Crisis GRL, USAFE and PACAF CRG and CRS, LMW IRT
- **THE IDEAL SOURCING**
 - **Maximize teaming & minimize fragging**
 - One unit supports few AOR bases
 - One AOR base has few support units

CYCLE III Apportioning/Sourcing

Guide

DRAFT

DRAFT

DRAFT

CYCLE 3 SOURCING MILESTONES

CYCLE II SOURCING CHANGES & CHALLENGES

- UTC Reapportionment and Sourcing Changes
 - MRL Changes (Nov 00 & Jan 01)
 - UTC moves from Lead Wings to the **SELECT** few
 - Avoid same cycle tasking, **if possible**
 - Ask the CSAF for permission
- Synchronize Deployable Asset Databases
 - MRL = AFWUS = **TPFDD Libraries** = **Predictability**

THE WAY AHEAD

**Institutionalizing the EAF Construct
means
institutionalizing the expeditionary mindset**

“... a force capable of deploying anywhere in the world in minimum time and in austere conditions— not operations from where we are stationed, but from where we are needed, not when we can, but when we must.”

~ General Ryan

THE WAY AHEAD

- Can we:
 - Align AF training with 15 month cycle - **From 12-24 to 15-30**
 - Make all UTCs modular/scalable - **Medics leading way**
 - Improve “Teaming” - **Medics leading way**
 - Pack equipment lighter and leaner - **Medics leading way**
 - Deploy people/equipment faster - **Limitations - process, lift**
 - Establish better enroute visibility
 - Employ aerospace power enroute
 - Secure people/equipment faster at any FOL
 - Employ airpower quicker from any FOL
 - Reach-back and support our FOLs more efficiently

EAF requires innovative ideas and leadership

THE WAY AHEAD

- **Training Frequency**
 - **12/24 month recurrences conflict with 15-month cycle**
 - **Change currency to 15- and 30-month cycles**
 - **Fully trained before deployment not during**
 - **Establish clear metrics for units to measure progress**
- **TDY Tracking**
 - **120 days TDY per 12-month period difficult to manage**
 - **Roll in with 15-month AEF cycle**
 - **Goal: 150 days TDY per 15-month period**
- **Keep flowing information**
 - **Air Staff, MAJCOMS, AEF Center**

SUMMARY

- **Cycle 2 on track - Improvements over Cycle 1 - room to grow in Cycle 3**
 - Finish right-sizing, posturing UTCs - **Medics on track!**
 - Expect UTC population to grow - **Requirements driven**
- **Cycle 3 priority: Teaming**
 - Cycle 3 requirements to field: Late Spring
 - FOL requirements defined by UTC - **Summer 2000**
 - AEFC present Cycle 3 draft schedule to FAMs - **Early Summer**

Cycle 3 - Opportunity for Dramatic Improvement

Questions?

A Vision for the 21st Century Air Force
